

# CHALK TALK

April 2014

## WHATS NEW

**L**otto

At last we receive a positive response from our 2012 application – we have been awarded R200 000 for 4 projects :-

Tiles for all public areas

New safety mats for the pit

New safety glass for upstairs viewing area

Additional seating for spectators

The roof leaks and improved ventilation was not included so we work on those problems on our own !

The wall upstairs has already been reinstated in anticipation of the tiling (when the R200k hits our account!) - of course now that we are back to our normal 7 day work week for the term the refurbishment schedule will get tricky – goal will be to have everything ready in time to host an international training course which is scheduled to start on the 29 June

## REPORT BACK

### World Cup Germany

Jesse , Sips & Stix participated in a world cup in Cottbus in preparation for Africa Championships – no finals yet but great experience

### Africa Championships

Once again Jesse (SA team coach) Sips & Stix were part of the action – I was involved on the technical side – scoring system and the running of the mens competition.

SA senior boys did well in the team competition – 3<sup>rd</sup> place – 1 better than 2011 in Tunisia

Both Sips and Stix made a final but no medals this time around – detail scores on the notice board – now for national championships in July
