

CHALK TALK

July 2011

WHATS NEW

E quipment

The first container load (R311 000.00 !!) of new equipment from the French company Gymnova has arrived and been installed – as soon as our reports are done we can order the 2nd container.

Apologies that we still have a whole pile of stuff waiting to be sent back to Pretoria – within the next 2 weeks we should have everything smart and tidy.

We will need to look after our equipment – I do not hear very encouraging news from the Lotto Board and presume that funding will become more difficult in the future.

P ainting

Bathrooms are done ! We will touch up other areas during the term

L ights

All the main lights are now repaired – many thanks to the senior boys (Kibone & Sthembiso) who braved the scaffolding to fit new globes and several capacitors and a couple of burnt out wires

Thanks are extended to Mr Nel from I&M Technical Projects (071 6083760) who

was kind enough to loan us the scaffolding and give us some technical advice.

Passage lights at the front of the gym area will receive attention during the term as well as the relocation of the switch.

20 Birthday Bash !!!

On the reverse and opposite are details of our 20th bash which will celebrate our 20th year in this building (the club is way older than that and was originally part of the Pinetown YMCA with premises in Kings Road)

The festivities will revolve around our “elite” competition and a dinner where all old and current members can celebrate together – normal telling of bad jokes and story swapping !!! (few surprise entertainment items as well) – the other part of the process is to use it as a “kick start” to get all those outstanding jobs and initiatives going or at least a brave try at actually doing something

We will also be arranging a games evening for the kids which will coincide with the dinner (Moses of course !) so those of you with young children will have somewhere to leave the kids – R50 includes games & hot dogs !

1st Aid training

During the holidays 5 staff members went on 1st aid training – our new 1st aid “officers” are – Natalie, Louise , Moses . Gerand and Allan

FOR YOUR DIARY
